

# Blood Lust Barak Obama

How could Americans vote Barak Obama our next president? There are so many reasons why Obama is bad for America, but by far the worse is his demonstrated lack of respect for human life. Obama's voting record and statements are proof positive of this.

## Born Alive Infant Protection Act

Obama more than once voted against giving aid to infants born alive from abortions. This would mean that infants born alive from botched abortions would not be guaranteed life saving help; no medical care, no nourishment, no water, nothing. They would simply be left crying alone until they die which may take hours or even days. This cruelty has happened many times according to testimony of abortion clinic workers who found it too disturbing to take. Passage of the Born Alive Infants Protection Act prevents this by making it mandatory to provide life saving care to these infants. The mother does not have to keep the child. Barak Obama voted against this bill. What a lack of compassion and humanity.

## Partial Birth Abortion Ban

Obama voted against a bill that prohibits partial birth abortions. In partial birth abortion, the baby is almost fully delivered. All but the head is outside the mother. Scissors are jammed into the baby's head and then through an inserted hose, the brains are sucked out. How horrible! Obama voted against putting a stop to this atrocity.

## Child Interstate Abortion Notification Act

Obama voted against a bill that criminalizes transporting pregnant minors across state lines for an abortion in order to circumvent parents' involvement.

This is just a partial list of Barak Obama's abominable voting record. All are on record and can be confirmed by checking voting records. Checking Obama's entire voting record is highly encouraged.

Now Obama has said that as one of his first acts, he will sign the Freedom of Choice Act (FOCA).

This act will take away states' rights to regulate abortions. Abortion will be elevated to the level of a first amendment right. Any woman could have an abortion for any reason, at any time through the entire length of pregnancy including partial birth and late term abortions. In addition, FOCA would:

- Remove safeguards for women having abortions through regulation
- Non-physicians will be allowed to perform abortions
- Do away with informed consent laws
- Require taxpayers to pay for abortions
- Laws protecting the rights of conscientious objection to abortion will be struck down. Hospitals and medical professionals could be required to perform and participate in abortions regardless of their religious beliefs and consciences. No freedom of choice there.
- Parental rights will be struck down. Parents of a minor having an abortion will have no right interfere or to even know about it.

All who voted for Barak Obama, have this blood on their heads. All we can do now is fight it fight it fight it.
