

There is no bigger injustice, crime or horror in the world than the killing of the innocent and helpless. This abhorrent action is never justified under any circumstance.

Lame arguments by pro-choicers:

What a woman does with her body is her business.

The flaw with this argument is that the body inside her womb is not her body. That body belongs to somebody else. To take another life in an attempt to make yours some how better is abominable.

Forced breeding is like slavery.

The only forced breeding would be rape. Rape, incest, deformity and threat to life of the mother make up less than 4% of total reasons for abortion. The other 96% are due to irresponsibility and selfishness. So why do we have thousands of abortions in the United States alone every month? Of these 96% of abortions, once the woman has conceived, she has bred and done it willingly.

The sad thing is that many will kill their own child to cover up and get rid of the "problem" they created through their own free will action. Either by their own selfish or ignorant choice or under pressure from husband, boy friend, parents, friends. These latter refuse to offer support and love, but instead either think of themselves, their financial responsibility, what others will think... It all comes down to selfishness and a lack of compassion.

Abortion under any circumstance is just plain wrong. If the embryo was not alive, then there would be nothing to kill. If it were not human, then it would be born a cat, a tree, an amoeba, or any other non-human creature. The conceived child is alive and is human. These cannot be argued.

Abortion is heinous and selfish crime. So many women regret their abortions, but cannot undo them. Women who display that they regret their abortions are treated with contempt by pro-choicers. This has happened at our own local shame, the abortion mill at Second and Market. So many women and girls have been lied to by abortionist and made atrocious mistakes because of the deception of abortion providers and supporters. Women and girls deserve support and alternatives. Grieving post-abortive mothers deserve support and compassion, not the contempt and vile attitude that the pro-aborts give. The pro-choices offer no help to these grieving mothers, but fortunately pro-lifers do. There is help and compassion for post abortive mothers.

We, the pro-lifers, are there to offer alternatives, support and compassion for scared and pressured mothers.

To err is human, compassion does not come from those who profit off of your error.

Pray to end abortion. Pray for mothers and their children
